Master Identity Lock

MASTER IDENTITY LOCK - APPLY TO EVERY PROMPT
Kruti Sharma is a clearly adult 30-year-old Indian woman, 5'8" tall, with the same established recognizable face and consistent 36-26-42 naturally curvy hourglass proportions: full natural bust, narrow defined waist and wide curvy hips. Preserve her apparent age, facial bone structure, body scale and proportions exactly across all images. Do not slim, enlarge, reshape or reinterpret her anatomy to suit a pose or garment.

She has very fair Indian skin with a warm-neutral living complexion. Skin must look genuinely photographed and unretouched, not like smooth AI skin with pore texture stamped over it. Preserve subtle multi-scale variation: irregular localized pores mainly around the nose and inner cheeks, much finer texture elsewhere, faint localized redness, warm/cool tonal fluctuation, mild natural under-eye variation, peach fuzz, tiny real-world marks and slight T-zone oiliness. Body skin has substantially subtler follicular texture than facial skin. Bright highlights naturally suppress microtexture; shadows contain less chromatic information and fine phone-camera noise. No plastic, waxy, porcelain, airbrushed or beauty-filter skin. No uniform pore maps or synthetic glow.

Her hair is long, naturally voluminous, dark and wavy with a middle part, believable weight and density, irregular overlapping waves, grouped strands and subtle flyaways. Avoid perfectly arranged AI hair and uniformly sharpened strands.

HEAD / NECK LOCK - ABSOLUTE: her head stays vertically balanced over the cervical spine with ZERO lateral head tilt. The imaginary line through both eyes remains approximately horizontal. Keep a natural elegant neck length, believable collarbones and relaxed shoulder slopes. Head rotation is allowed; sideways inclination is not. No compressed neck, forward-head posture, floating head, raised shoulder touching the head or stereotypical influencer head cock.

Universal Photo Realism Lock

UNIVERSAL PHOTO REALISM LOCK - APPLY TO EVERY PROMPT
Mandatory 4:5 portrait. The image must resemble a real iPhone 15 photograph, not CGI, 3D, a studio campaign or a beauty-filtered render. Use believable handheld perspective, natural exposure, restrained computational photography, realistic iPhone dynamic range, mild sharpening, slight real-world softness and subtle luminance noise in darker regions. Do not resolve every pore, hair, fabric fiber, leaf and background object equally. Preserve distance-dependent detail, modest highlight clipping/softening and naturally reduced shadow information. No extreme HDR, fake DSLR bokeh, synthetic rim light, commercial retouching, artificial face-brightening, excessive microcontrast or hyper-sharpening. Lighting, shadows, reflections, jewellery, fabric behavior and perspective must all be physically coherent.

Library Rules

• All images are mandatory 4:5 portrait unless you intentionally override the aspect ratio later.

• Kruti is always a clearly adult 30-year-old woman with the same face and proportions.

• Hotness is a constant. The variables are outfit type, amount/location of skin shown, pose, jewellery, location, lighting and camera situation.

• Revealing styling stays non-explicit: deep necklines, cleavage, open backs, exposed shoulders, midriff, low-rise waists, mini lengths, swimwear, sheer layering over opaque inner pieces and fitted silhouettes.

• Zero lateral head tilt remains absolute even in selfies, over-the-shoulder poses and candid-looking frames.

• The scene must still look like a real iPhone photograph with believable skin, fabric, lighting, reflections and imperfections.

Prompt 001 - Daytime Gen-Z

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a fitted ribbed halter crop top with a very deep scoop neckline, narrow halter straps and an almost completely open back in ivory white, paired with washed low-rise denim shorts with a short hem and authentic pocket construction. The top is intentionally bold and revealing, showing a clear amount of cleavage, shoulders, back and/or midriff according to its cut while remaining a believable adult fashion garment. Preserve realistic fabric thickness, seams, edge tension and small natural folds; never make clothing look painted onto the body. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small chunky gold hoop earrings, a fine gold pendant chain and two thin stacked bracelets. minimal believable makeup with textured brows, softly defined lashes, faint cheek warmth and muted pink-nude lips. Keep her hair fully loose and naturally voluminous. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing beside a kitchen island, one hand resting on the stone counter and the other loosely near the low waistband, weight mainly on one leg. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: calm direct eye contact with softly relaxed lips.

BACKGROUND: a bright lived-in contemporary apartment kitchen with warm off-white walls, stone island, wood cabinetry and ordinary objects. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: late-morning window light from one side with soft natural shadow falloff. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Third-person handheld iphone 15 photo framed from upper thighs to slightly above the head at about chest-to-eye camera height.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

BACKGROUND: a sunlit balcony overlooking ordinary residential buildings, trees and city details. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 012 - Daytime Gen-Z

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a backless fitted halter top with a deep V front and narrow neck ties in deep plum, paired with a faded low-rise denim mini skirt with a slightly worn hem. The top is intentionally bold and revealing, showing a clear amount of cleavage, shoulders, back and/or midriff according to its cut while remaining a believable adult fashion garment. Preserve realistic fabric thickness, seams, edge tension and small natural folds; never make clothing look painted onto the body. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is walking slowly past a cafe frontage, one hand holding a small shoulder bag strap while the other swings naturally, captured between steps. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a sunlit balcony overlooking ordinary residential buildings, trees and city details. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: a modern apartment living room with sofa, coffee table, books, curtains and a large side window. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: side daylight filtered through curtains, producing uneven but believable illumination. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Real iphone 15 medium-full portrait from approximately knee level upward, using ordinary wide-camera perspective without distortion.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Keep the styling relaxed-at-home but still boldly revealing: visible cleavage or upper chest, exposed waist and navel, and a short/low-rise lower silhouette. Fabric must behave like real cotton, jersey, rib knit, satin or mesh with believable stretch and folds. Keep the look intentionally bold even in the casual setting: low neckline, exposed waist or back, short/low-rise lower silhouette and confident adult body language.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing in a doorway with one foot slightly forward and one hand touching the doorframe. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a cozy bedroom with cream walls, linen bedding, bedside lamp and daylight from a half-open curtain. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 050 - Home and Bedroom

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a fitted one-shoulder crop top with an asymmetric cutout at the waist in dark teal, paired with loose low-rise cotton pajama trousers with a visible drawstring. Keep the styling relaxed-at-home but still boldly revealing: visible cleavage or upper chest, exposed waist and navel, and a short/low-rise lower silhouette. Fabric must behave like real cotton, jersey, rib knit, satin or mesh with believable stretch and folds. Keep the look intentionally bold even in the casual setting: low neckline, exposed waist or back, short/low-rise lower silhouette and confident adult body language.

JEWELLERY + BEAUTY: tiny crystal studs, a thin bracelet and a minimalist watch. understated warm makeup with subtle lashes, natural cheek color and a soft brown-pink lip. Keep the middle part natural with a few flyaways around the hairline. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is reaching casually toward a bedside table for a glass of water while glancing toward the camera. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a composed neutral expression with slightly parted lips.

BACKGROUND: a contemporary bedroom with large window, low bed, woven rug and a chair holding a handbag. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: late-afternoon directional sunlight creating real highlight-shadow contrast without HDR recovery. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Third-person iphone 15 shot from around waist-to-chest camera height, slightly off-center with natural handheld imperfection.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 063 - Hotel and Getting Ready

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a deep burgundy halter mini dress with a plunging V neckline, exposed shoulders and an open back. The dress is deliberately body-skimming and revealing through a low neckline, exposed back, high thigh hem and/or waist cutout, while preserving her locked anatomy rather than reshaping it. Render realistic fabric drape, seam tension and selective highlights. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small geometric gold studs, one fine necklace and stacked micro-bangles. very light daytime makeup with visible real skin texture, defined brows and a muted nude lip. Let most waves fall behind her shoulders so the neckline and open back stay visible. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is sitting cross-legged near the center of the bed with an upright torso and one hand lifting hair away from the shoulder. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a subtle closed-mouth half-smile with confident eye contact.

BACKGROUND: a business hotel sitting area with armchair, floor lamp and small side table. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: ordinary overhead interior lighting with slightly stronger highlights on forehead, nose and shoulders. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Casual third-person iphone 15 portrait from mid-thigh upward, with the subject filling most of the frame but enough environment visible.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

OUTFIT: Kruti wears a minimal bandeau-style fitted top with a clean straight neckline and fully exposed shoulders in ruby red, paired with a fitted low-rise black mini skirt ending high on the thighs. Keep the getting-ready styling bold: visible cleavage, bare shoulders/back or exposed midriff, with realistic garment construction and no artificial body reshaping. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small chunky gold hoop earrings, a fine gold pendant chain and two thin stacked bracelets. minimal believable makeup with textured brows, softly defined lashes, faint cheek warmth and muted pink-nude lips. Keep her hair fully loose and naturally voluminous. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is sitting at the end of a booth with one forearm on the table and the other resting naturally on the thigh. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: calm direct eye contact with softly relaxed lips.

BACKGROUND: a mid-range Indian business hotel room with beige walls, simple wood furniture, white bedsheets and a warm bedside lamp. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: warm practical lamp light mixed with weaker cool ambient city light, preserving real mixed color temperatures. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Third-person handheld iphone 15 photo framed from upper thighs to slightly above the head at about chest-to-eye camera height.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small gold huggie earrings, a fine layered chain and a delicate anklet. soft natural makeup with brushed brows, subtle brown liner, real skin showing through and a muted rose lip. Let a few front waves fall over one shoulder while most hair remains behind the body. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing beside a vanity while adjusting one earring, shoulders relaxed and head upright. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: a hotel dressing area beside a wardrobe with warm ceiling lights and a full-length mirror. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: side daylight filtered through curtains, producing uneven but believable illumination. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Real iphone 15 medium-full portrait from approximately knee level upward, using ordinary wide-camera perspective without distortion.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 102 - Street Cafe Mall

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a structured corset-inspired crop top with thin straps, a low sweetheart neckline and visible panel construction in deep plum, paired with a faded low-rise denim mini skirt with a slightly worn hem. The top is intentionally bold and revealing, showing a clear amount of cleavage, shoulders, back and/or midriff according to its cut while remaining a believable adult fashion garment. Preserve realistic fabric thickness, seams, edge tension and small natural folds; never make clothing look painted onto the body. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is walking slowly past a cafe frontage, one hand holding a small shoulder bag strap while the other swings naturally, captured between steps. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a mall escalator landing with glass railings, retail lighting and softly resolved store signage. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is leaning lightly against a sunlit apartment wall, one knee relaxed forward and one hand brushing hair behind the shoulder. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: an outdoor coffee kiosk area with concrete paving, high stools and city traffic farther away. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: side daylight filtered through curtains, producing uneven but believable illumination. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Real iphone 15 medium-full portrait from approximately knee level upward, using ordinary wide-camera perspective without distortion.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Preserve realistic wet/dry fabric behavior only if the scene logically supports it. Keep the styling confidently revealing through swimwear cut, visible cleavage, exposed stomach/back, hips and legs, but keep it non-explicit and physically believable.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is sitting sideways on a pool lounger with one knee bent and the opposite leg extended naturally. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a rooftop pool with glass railing, city buildings and a few potted plants. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

JEWELLERY + BEAUTY: tiny crystal studs, a thin bracelet and a minimalist watch. understated warm makeup with subtle lashes, natural cheek color and a soft brown-pink lip. Keep the middle part natural with a few flyaways around the hairline. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing beside tropical landscaping with one hand resting at the waist and the other holding a cold drink. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a composed neutral expression with slightly parted lips.

BACKGROUND: a tropical resort pool surrounded by palms, stone paths and irregular landscaping. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: late-afternoon directional sunlight creating real highlight-shadow contrast without HDR recovery. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Third-person iphone 15 shot from around waist-to-chest camera height, slightly off-center with natural handheld imperfection.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a subtle closed-mouth half-smile with confident eye contact.

BACKGROUND: a pool-to-beach transition area with tiled deck, low landscaping and ocean beyond. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: bright open-shade daylight with mild reflected fill from pale surrounding surfaces. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Casual third-person iphone 15 portrait from mid-thigh upward, with the subject filling most of the frame but enough environment visible.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

OUTFIT: Kruti wears a sand beige strapless bandeau swimsuit with high-cut legs and an open back, styled with a loose open linen shirt or a low-tied lightweight sarong depending on the pose. Keep the vacation styling boldly revealing with visible cleavage, stomach, back, hips and legs while remaining normal adult resort fashion. Keep the styling confidently revealing through swimwear cut, visible cleavage, exposed stomach/back, hips and legs, but keep it non-explicit and physically believable.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is sitting on the edge of a sofa with knees angled slightly to one side, one palm on the cushion and the other resting near the thigh. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a resort balcony overlooking the ocean with simple outdoor chairs and glass railing. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Night Out

Prompt 181 - Night Out

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a deep ivory white satin mini slip dress with spaghetti straps, a low draped cowl neckline and a low open back. Keep the look overtly bold and glamorous without becoming synthetic: low neckline with natural cleavage, exposed back or waist, and a short thigh-level hem. Fabric reflections must remain physically believable. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small chunky gold hoop earrings, a fine gold pendant chain and two thin stacked bracelets. minimal believable makeup with textured brows, softly defined lashes, faint cheek warmth and muted pink-nude lips. Keep her hair fully loose and naturally voluminous. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing beside a restaurant bar counter with one elbow lightly on the surface and the opposite hand relaxed near the hip. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: calm direct eye contact with softly relaxed lips.

BACKGROUND: a real contemporary restaurant bar with dark wood, stone counter, ordinary glassware and warm pendant lights. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: warm practical lamp light mixed with weaker cool ambient city light, preserving real mixed color temperatures. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 194 - Night Out

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a fitted ruched crop top with a low sweetheart neckline and short cap sleeves in steel blue, paired with a fitted dark denim mini skirt with real seam and pocket construction. The outfit is a strong night-out look with substantial visible midriff and a low neckline or sheer/bralette element, while the lower piece remains low-rise or high-thigh. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small gold huggie earrings, a fine layered chain and a delicate anklet. soft natural makeup with brushed brows, subtle brown liner, real skin showing through and a muted rose lip. Let a few front waves fall over one shoulder while most hair remains behind the body. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is walking slowly through a softly lit restaurant corridor while glancing directly toward the camera. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: a softly lit restaurant corridor with textured walls, wall sconces and distant diners. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: low warm room lighting with realistic falloff and no artificial face-brightening. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Real iphone 15 medium-full portrait from approximately knee level upward, using ordinary wide-camera perspective without distortion.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

OUTFIT: Kruti wears a fitted one-shoulder crop top with an asymmetric cutout at the waist in deep maroon, paired with olive low-rise cargo pants with oversized side pockets and relaxed legs. The outfit is a strong night-out look with substantial visible midriff and a low neckline or sheer/bralette element, while the lower piece remains low-rise or high-thigh. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing near a lounge entrance while adjusting one earring with a raised hand. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a stylish but believable cocktail-free lounge setting with high tables, warm lamps and dark textured walls. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: blue-hour ambient light mixed with a warm doorway or interior practical light. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: side daylight filtered through curtains, producing uneven but believable illumination. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Use a genuine iPhone 15 mirror-selfie composition. The phone is physically visible in the reflection, reflections remain geometrically coherent, and the crop usually runs from upper thighs or knees to slightly above the head. Hold the phone just below or near face level without hiding the entire face. Keep ordinary mirror distortion and slight framing imperfection.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 232 - Mirror and Selfie

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a warm caramel halter mini dress with a plunging V neckline, exposed shoulders and an open back. Keep the look overtly bold and glamorous without becoming synthetic: low neckline with natural cleavage, exposed back or waist, and a short thigh-level hem. Fabric reflections must remain physically believable. Keep the look intentionally bold even in the casual setting: low neckline, exposed waist or back, short/low-rise lower silhouette and confident adult body language.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is taking a standing mirror selfie with one knee relaxed forward, phone slightly off-center and free hand brushing hair behind the shoulder. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: an elevator mirror with brushed stainless-steel edges and coherent reflections. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: soft overcast daylight with natural facial modeling and no beauty fill. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small gold huggie earrings, a fine layered chain and a delicate anklet. soft natural makeup with brushed brows, subtle brown liner, real skin showing through and a muted rose lip. Let a few front waves fall over one shoulder while most hair remains behind the body. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is leaning lightly against a sunlit apartment wall, one knee relaxed forward and one hand brushing hair behind the shoulder. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: the passenger side of a modern car parked in daylight, with realistic leather seat, dashboard reflections and city outside. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: low warm room lighting with realistic falloff and no artificial face-brightening. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Real iphone 15 medium-full portrait from approximately knee level upward, using ordinary wide-camera perspective without distortion.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a hotel elevator with warm metal panels, subtle reflections and overhead lights. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: blue-hour ambient light mixed with a warm doorway or interior practical light. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Rooftop Balcony Garden

Prompt 271 - Rooftop Balcony Garden

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a fitted ruched crop top with a low sweetheart neckline and short cap sleeves in emerald green, paired with white low-rise linen-blend shorts with realistic wrinkles and a clean tailored cut. The top is intentionally bold and revealing, showing a clear amount of cleavage, shoulders, back and/or midriff according to its cut while remaining a believable adult fashion garment. Preserve realistic fabric thickness, seams, edge tension and small natural folds; never make clothing look painted onto the body. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small chunky gold hoop earrings, a fine gold pendant chain and two thin stacked bracelets. minimal believable makeup with textured brows, softly defined lashes, faint cheek warmth and muted pink-nude lips. Keep her hair fully loose and naturally voluminous. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is standing beside a kitchen island, one hand resting on the stone counter and the other loosely near the low waistband, weight mainly on one leg. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: calm direct eye contact with softly relaxed lips.

BACKGROUND: a residential rooftop terrace with concrete floor, simple railing, water tanks and ordinary city buildings. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: late-morning window light from one side with soft natural shadow falloff. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Third-person handheld iphone 15 photo framed from upper thighs to slightly above the head at about chest-to-eye camera height.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a silky soft lavender cowl-neck mini dress with very thin straps and a low-cut back. The dress is deliberately body-skimming and revealing through a low neckline, exposed back, high thigh hem and/or waist cutout, while preserving her locked anatomy rather than reshaping it. Render realistic fabric drape, seam tension and selective highlights. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: small gold huggie earrings, a fine layered chain and a delicate anklet. soft natural makeup with brushed brows, subtle brown liner, real skin showing through and a muted rose lip. Let a few front waves fall over one shoulder while most hair remains behind the body. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

Expression: a soft confident gaze just past the camera before returning to direct eye contact.

BACKGROUND: a landscaped apartment garden with stone path, shrubs, benches and residential buildings beyond. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. LIGHTING: low warm room lighting with realistic falloff and no artificial face-brightening. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

Prompt 297 - Rooftop Balcony Garden

Identity reminder: Kruti Sharma, age 30, same locked face and 36-26-42 natural proportions. Zero lateral head tilt; head upright and eye-line approximately level.

OUTFIT: Kruti wears a deep burgundy underwire bikini top with slim straps and low-rise high-leg bottoms, styled with a loose open linen shirt or a low-tied lightweight sarong depending on the pose. Keep the vacation styling boldly revealing with visible cleavage, stomach, back, hips and legs while remaining normal adult resort fashion. Do not reduce the boldness because of the setting: preserve the low neckline, visible cleavage, exposed shoulders/back or midriff, and short or low-rise lower silhouette described in the outfit.

JEWELLERY + BEAUTY: sculptural small gold hoops, two thin rings and a narrow cuff bracelet. restrained clean-girl makeup without glass-skin shine: natural brows, light mascara and soft neutral lips. Tuck one side behind an ear while the remaining waves stay loose. Jewellery must have correct scale, gravity, contact shadows and reflections; it must never float, merge into skin or fuse with hair.

POSE: Kruti is sitting on the edge of a sofa with knees angled slightly to one side, one palm on the cushion and the other resting near the thigh. Keep natural weight distribution, believable joints and ordinary shoulder asymmetry. Her locked proportions should create the silhouette naturally; do not force a severe back arch, artificial chest push or impossible hip displacement. Even if the torso rotates or she looks back, the head remains completely upright with zero lateral tilt. Expression: a relaxed candid expression as if the camera caught her mid-moment.

BACKGROUND: a narrow balcony with potted plants, textured wall and ordinary city view. Make it feel genuinely occupied or used, with realistic material differences, irregular object placement, natural surface wear, non-repeating foliage or reflections and correct distance-dependent detail. Avoid generic luxury-fantasy styling unless the location itself requires it.

LIGHTING: blue-hour ambient light mixed with a warm doorway or interior practical light. The same light direction must affect face, body, outfit, jewellery and environment coherently. Do not add ring-light catchlights, independent face illumination, synthetic rim glow or beauty fill. Allow brighter skin to lose some microscopic texture and darker areas to carry fine phone-camera noise.

CAMERA: Natural iphone 15 photograph at roughly eye level, framed from upper thighs upward with slight real-world compositional imbalance.

FINAL TARGET: A hot, bold, revealing but non-explicit adult fashion/lifestyle image of Kruti that still looks like a spontaneous real iPhone photograph. The attractiveness should come from the garment cut, exposed skin, confident natural pose and her locked natural proportions - never from distorted anatomy or glossy AI glamour rendering.

The top is intentionally bold and revealing, showing a clear amount of cleavage, shoulders, back and/or midriff according to its cut while remaining a believable adult fashion garment.
